

BHARAT INSTITUTE OF TECHNOLOGY

Mangalpally, Ibrahimpatnam, R.R. District, PIN-501510

(Affiliated to JNTUH, Approved by AICTE and PCI, New Delhi. Accredited by NAAC)

2.2 Catering to Student Diversity

2.2.1(1) Process to identify advance learners and slow learners:

- The institution recognizes the significance of addressing the diverse needs of students in practical educational settings.
- Educators and administrators work collaboratively to overcome challenges and implement activities that foster inclusivity and engagement.
- A mentor-mentee system has been established to provide personalized support, allowing mentors to continuously assess and guide students throughout their academic journey.
- Students' initial learning abilities are assessed based on their performance in entrance exams.
- Faculty members identify advanced and slower learners through internal assessments, annual exams, and their participation in class and practical sessions.
- Customized strategies are applied to specific subjects, papers, and practical sessions to cater to the unique needs of both advanced and slower learners.

BHARAT INSTITUTE OF TECHNOLOGY

Mangalpally, Ibrahimpatnam, R.R. District, PIN-501510

(Affiliated to JNTUH, Approved by AICTE and PCI, New Delhi. Accredited by NAAC)

Various Steps Involved for Advanced Learners:

- Each department organizes activities tailored to its field, helping students explore and grow in their areas of interest.
- Students are provided access to MOOC courses to enhance their knowledge and learning experience.
- Numerous opportunities are created for students to develop their skills through workshops, seminars, and other activities.
- High-achieving students are motivated to aim for top university ranks and achieve excellence.
- Toppers are recognized and celebrated with certificates of appreciation, inspiring them to continue their journey of success.
- Based on their strengths and potential, students are guided and encouraged to appear for competitive exams like IELTS, GATE, GPAT, TOEFL, and more, opening doors to greater opportunities.

Area of Motivation	Description	Emotional Rewards/Impact
MOOCs Facilitated by IIT	Students are encouraged to enroll in online courses for skill enhancement.	Builds confidence and equips students with cutting-edge skills.
Recognition for Toppers	Toppers are awarded medals and certificates.	Students feel valued and motivated to achieve more.
Skill-Building Activities	Students participate in workshops, seminars, and conferences.	Boosts teamwork, creativity, and leadership skills.
Guidance for Competitive Exams	Students are encouraged to attempt exams like IELTS, GATE, and TOEFL.	Opens pathways to higher education and global opportunities.
Motivating for Academic Excellence	Students are inspired to aim for university ranks.	Enhances students' self-esteem and drives them toward success.

BHARAT INSTITUTE OF TECHNOLOGY

Mangalpally, Ibrahimpatnam, R.R. District, PIN-501510

(Affiliated to JNTUH, Approved by AICTE and PCI, New Delhi. Accredited by NAAC)

2.2.1(3) Special activities for advance learners:

Learning Activity	Details
Seminar Sessions	Conducted to provide in-depth knowledge and insights.
Group Discussions	Facilitated to encourage collaborative learning and idea exchange.
Debates	Organized to develop critical thinking and public speaking skills.
Problem-Based Learning Challenges	Engaged to solve real-world problems and enhance practical skills.
Projects	Assigned to apply theoretical knowledge in practical scenarios.

Explain the drugs used in CHF (Congestive Heart Failure). Emphasize on their Pharmacokinetic and Pharmacodynamic Parameters.

Drugs Used in CHF (Congestive Heart Failure)

Congestive Heart Failure (CHF) treatment involves medications aimed at reducing symptoms, slowing disease progression, and improving survival. Here's an overview of key drug classes with an emphasis on pharmacokinetics and pharmacodynamics:

1. ACE Inhibitors (e.g., Enalapril, Lisinopril, Ramipril)

Message ChatGPT

ChatGPT ▾

Pharmacodynamics:

- Inhibit angiotensin-converting enzyme (ACE), reducing the production of angiotensin II.
- Leads to vasodilation, decreased afterload and preload, and reduced cardiac remodeling.
- Increases bradykinin levels, further promoting vasodilation.

Pharmacokinetics:

- **Enalapril:**
 - Bioavailability: ~60%
 - Onset: ~1 hour; Peak effect: 4–6 hours
 - Half-life: 11 hours (active metabolite: ↓alaprilat)
 - Excretion: Primarily renal

Parental Updates:

Industrial Training - Diploma III - Isem

GUIDELINES: (1) It is the responsibility of Mentors to call the parents of students everyday and inform them about students' absence and note the details in this register. (2) If the mentor is absent, it is the duty of the Class VC to communicate to the parents about the absence of the students of the class. (3) Parents contact details must be taken from the Admission Form or Students' Monitoring Report and not from the students. (4) Class VC should verify communication register of all the members of the Academic Council. A note with remarks about periodic verification should be done by the Department Admin VC and members of the Academic Council. A note with remarks about the marks below the last entry made in the register along with signature and date of the verifying authority (i.e., Class VC, Department Admin VC, members of Academic Council).

Jigsaw Activity

Objective:

The primary goal of the jigsaw activity is to foster collaborative learning and ensure comprehensive understanding of the subject matter by engaging students in a structured group activity. The jigsaw technique aims to develop critical thinking, improve communication skills, and encourage active participation from all students.

STEP-1

Topic Selection: Choose a topic that can be divided into several subtopics. For example, in a history class, the topic could be "The American Revolution," with subtopics such as "Causes of the Revolution," "Key Battles," "Important Figures," and "Consequences of the Revolution."

Group Formation: Divide the class into small groups (4-6 students per group) ensuring a mix of abilities in each group.

Subtopic Assignment: Assign a different subtopic to each student within the original groups. These students will become "experts" on their assigned subtopic.

STEP-2

Expert Groups Formation: Students with the same subtopic from different original groups come together to form "expert groups." In these expert groups, students collaborate to research, discuss, and understand their subtopic in depth.

Expert Group Discussion: Each expert group works on their subtopic by:

- Conducting research (using textbooks, online resources, etc.)

- Discussing key points and ensuring everyone understands the material.

- Preparing to teach their original group about the subtopic.

Reformation of Original Groups: After sufficient time in expert groups, students return to their original groups.

Teaching and Sharing: Each student, now an expert on their subtopic, teaches the other members of their original group. This involves:

- Presenting their findings.

- Answering questions from group members.

- Facilitating a discussion to ensure everyone grasps the subtopic.

STEP-3

Group Assessment: assessing the group as a whole based on their understanding of the entire topic. This is done through group presentations, a collective project, or a group quiz.

Individual Assessment: Assessing individual students on their expertise and their ability to convey information to their peers.

Jigsaw Activity on Communication Skills

A jigsaw activity was conducted with 60 second-year pharmacy students to enhance their understanding of communication skills. The activity aimed to foster collaborative learning, improve communication skills, and ensure comprehensive knowledge of the subject.

Step 1: Six groups were formed out of the 60 students. The topic "Communication Skills" was

introduced to all the groups simultaneously. The topic was discussed among the students and later divided into subtopics: Verbal Communication, Non-verbal Communication, Active Listening, Written Communication, Barriers to Effective Communication, and Interpersonal Communication. Each student in the original groups was assigned a different subtopic to become an "expert" on.

Step 2: Expert groups were formed with students who had the same subtopic from different original groups. These expert groups conducted research, discussed key points, and prepared to teach their original groups about their subtopic.

Step 3: After sufficient time in expert groups, students returned to their original groups.

Step 4: Each student taught their original group about their subtopic by presenting their findings, answering questions, and facilitating a discussion.

Groups were assessed through presentations, a collective project, and a group quiz on the entire

topic. Individual students were assessed on their expertise and ability to convey information to their peers.
