CIRCULAR

This is to inform to the students that we are going to conduct a program on **Artificial Intelligence and Machine Learning**. Details of the program are furnished below kindly follow the schedule mentioned below. Class in charges of shall make sure that students actively participate in the program.

1. Title : **Artificial Intelligence and Machine Learning**
2. Domain : **Career development program**
3. Speaker : **Dr. Vasudeva Varma, Professor, IIT Hyderabad**
Dr. Siddharth barman, Associate professor, IIT-Bangalore
4. Date : **22/08/2022-26/08/2022**
5. Time : **09:00 am-05:00pm**
6. Venue : **Seminar Hall**

PRINCIPAL

Bharat Institute of Technology
Mangalpally (V), Ibrahimpatnam (M),
R.R. Dist - 501 510, Telangana.

Vision

To build nation's one among the best centers of excellence engaged in providing overall pharmaceutical Education including training and research. Bharat Institute of Technology (Pharmacy) firmly believes that right knowledge and ethical responsibility drives individual commitment for the service of mankind.

Mission

M1: To bring students India's best education, as combination of teaching theory and practical application of knowledge and research in pharmaceutical sciences in order to train them to many positions of leadership and responsibility in pharmaceutical industry in academic and health care sector.

M2: To impart education, in a conducive ambience as comprehensive as possible, with the support of modern technologies and pedagogical tools and thereby develop in the students the abilities and pass on to work wisely, creatively and effectively for the betterment of society.

M3: to impart a value-based education, where the mind, body and the soul are holistically developed and major purpose of life is seen in the mankind and meeting the great challenges of the future.

IIT-Hyderabad

Dr. Siddharth barman

Associate Professor

IIT-Bangalore

CO-ORDINATOR

Mrs. Azka Fathima

Assistant Professor,

Bharat Institute of Technology-Pharmacy

Assessment

Upon Completion of the Course , Assessment is Done by Multiple Choice Questions.

ABOUT THE INSTITUTION

Bharat Institute of Technology was established in the year 1999 by the Chintia Reddy Madusudhan Reddy Educational Society with the noble aim of imparting quality pharmacy education to students aspiring to become responsible pharmacists and to cater to the needs of pharmacy profession. Bharat Institute of Technologies (BIT) mission is to impart the higher education to both urban and rural students in the field of pharmacy and to conduct advanced research programmes in fostering close partnership with R&D institutions and industries. Nurturing young minds into passionate pharma professionals. Personal care to each and every student for the betterment of their bright future. Joyful learning experience in a holistic and an ambient environment.

Course Objectives

- Understand Fundamental Concepts
- Explore Core Algorithms and Models
- Apply Hands-On Skills
- Analyze Real-World Applications
- Address Ethical Considerations
- Prepare for Future Trends

Course Outcomes

Upon Completion of the Course,

Students will be able to communicate about

1. Demonstrate a Solid Understanding of AI and ML
2. Implement Core ML Algorithms and Models
3. Develop Practical AI Solutions
4. Analyze and Apply AI in Industry Contexts
5. Navigate Ethical and Practical Challenges
6. Plan for Future Development and Career Growth

Value Added Course on Artificial Intelligence and Machine Learning

22nd to 26th august 2022

Venue: Seminar Hall

Organized by

VALUE-ADDED COURSE
On
ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING
SUMMARY REPORT

A Value-Added Course for All the years of B. Pharm., Pharma. D, M. Pharm Students organized by the Department of Pharmacy at Bharat Institute of Technology-Pharmacy from 22nd August to 26th August 2022. The course was conducted on “**Artificial Intelligence and Machine Learning**”. The resource persons for the course are **Dr. Vasudeva Varma**, Professor, IIT-Hyderabad and **Dr. Siddharth barman**, Associate Professor, IIT-Bangalore. The course started on 22nd August 2022 with the welcome address by the coordinator **Mrs. Azka Fathima**, Assistant Professor, BIT-Pharmacy introduced the resource person. It ended on 26th August 2022 with concluding remarks by the resource person. A total of 80 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

- Understand Fundamental Concepts
- Explore Core Algorithms and Models
- Apply Hands-On Skills
- Analyze Real-World Applications
- Address Ethical Considerations
- Prepare for Future Trends

Course Outcomes:

- Demonstrate a Solid Understanding of AI and ML
- Implement Core ML Algorithms and Models
- Develop Practical AI Solutions
- Analyze and Apply AI in Industry Contexts
- Navigate Ethical and Practical Challenges
- Plan for Future Development and Career Growth

Vision

To build nation's one among the best centers of excellence engaged in providing overall pharmaceutical Education including training and research. Bharat Institute of technology (Pharmacy) firmly believes that right knowledge and ethical responsibility drives individual commitment for the service of mankind.

Mission

M1: To bring students India's best education, as combination of teaching theory and practical application of knowledge and research in pharmaceutical sciences in order to train them to many positions of leadership and responsibility in pharmaceutical industry in academic and health care sector.

M2: To impart education, in a conducive ambience as comprehensive as possible, with the support of modern technologies and pedagogic tools and thereby develop in the students the abilities and passions to work wisely, creatively and effectively for the betterment of society.

M3: to impart a value-based education, where the mind, body and the soul are holistically developed and major purpose of life is seen in the mankind and meeting the great challenges of the future.

ABOUT THE INSTITUTION

Bharat Institute of Technology was established in the year 1999 by the Chinta Reddy Madusudhan Reddy Educational Society with the noble aim of imparting quality pharmacy education to students aspiring to become responsible pharmacists and to cater to the needs of pharmacy profession. Bharat Institute of Technologies (BIT) mission is to impart the higher education to both urban and rural students in the field of pharmacy and to conduct advanced research programmes in fostering close partnership with R&D institutions and industries. Nurturing young minds into passionate pharma professionals. Personal care to each and every student for the betterment of their bright future. Joyful learning experience in a holistic and an ambient environment.

Course Objectives

This course emphasises on theoretical aspects of electrophysiology of heart and imparts the practical knowledge on recording of electrocardiogram and interpretation. Certificate will be provided after successful completion of the course.

Course Outcomes

Upon Completion of the Course,
Students will be able to communicate about

1. Understand electrophysiology of heart.
2. Understand the significance of ECG recording.
3. Understand the various waves in the ECG.
4. Develops skills of interpretation of various cardiovascular conditions with the help of ECG.

**ELECTROCARDIOGRAM INTERPRETATION AND STUDY OF
ELECTROPHYSIOLOGY**

SUMMARY REPORT

A Value-added course for Pharma. D IInd, IIIrd & IVth Year Students was organized by the Department of Pharmacology at Bharat Institute of Technology-Pharmacy from 5th July 2021 to 10th July 2021. The course was conducted on "*Electrocardiogram Interpretation and Study of Electrophysiology*" resource person for the course is **P. Haritha**, Assistant Professor, Department of Pharmacology, BIT-Pharmacy. The course started on 5th July 2021 with the welcome address by the coordinator **Ms. Rachel Niveditha**, Assistant Professor, BIT-Pharmacy and introduced the resource person. It ended on 10th July 2021 with concluding remarks by the resource person. A total of 50 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

This course emphasises on theoretical aspects of electrophysiology of heart and imparts the practical knowledge on recording of electrocardiogram and interpretation. Certificate will be provided after successful completion of the course.

Course Outcomes:

1. Understand electrophysiology of heart.
2. Understand the significance of ECG recording.
3. Understand the various waves in the ECG.
4. Develops skills of interpretation of various cardiovascular conditions with the help of ECG.

**PHARMACEUTICAL PRODUCTION MANAGEMENT
SUMMARY REPORT**

A Value-Added Course for B.Pharmacy IIIrd Year Students was organized by the Department of Pharmaceutics at Bharat Institute of Technology-Pharmacy from 21st to 25th March 2022. The course was conducted on "**Pharmaceutical Production Management**". The resource person for the course is **Dr. J. Bhaskar**, Associate Professor, BIT-Pharmacy. The course started on 21st March 2022 with the welcome address by the coordinator and introductory remarks by the Coordinator **Mrs. Kabita Banik**, Assistant Professor, BIT-Pharmacy. It ended on 25th March 2022 with concluding remarks by the resource person. A total of 26 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

1. To provide an overview of pharmaceutical production processes and their significance in drug manufacturing.
2. To explore the principles of quality control and assurance in pharmaceutical production.
3. To examine regulatory guidelines and standards governing pharmaceutical manufacturing.
4. To introduce project management concepts and their application in optimizing production processes.
5. To discuss the role of technology and automation in modern pharmaceutical production.

Course Outcomes:

Upon completion of the course, the student will be able to achieve the following outcomes:

1. Understand the principles and processes involved in pharmaceutical production.
2. Analyze the various stages of pharmaceutical production and identify potential areas for optimization.
3. Implement quality control measures to ensure the production of safe and effective pharmaceutical products.
4. Evaluate regulatory requirements and compliance issues related to pharmaceutical production.
5. Apply project management techniques to streamline production processes and improve efficiency.
6. Utilize technology and automation in pharmaceutical production for enhanced productivity and quality assurance

Vision

To build nation's one among the best centers of excellence engaged in providing overall pharmaceutical Education including training and research. Bharat Institute of technology (Pharmacy) firmly believes that right knowledge and ethical responsibility drives individual commitment for the service of mankind.

Mission

M1: To bring students India's best education, as combination of teaching theory and practical application of knowledge and research in pharmaceutical sciences in order to train them to many positions of leadership and responsibility in pharmaceutical industry in academic and health care sector.

M2: To impart education, in a conducive ambience as comprehensive as possible, with the support of modern technologies and pedagogic tools and thereby develop in the students the abilities and passions to work wisely, creatively and effectively for the betterment of society.

M3: to impart a value-based education, where the mind, body and the soul are holistically developed and major purpose of life is seen in the mankind and meeting the great challenges of the future.

Assessment

Upon Completion of the Course , Assessment is Done by Multiple Choice Questions.

ABOUT THE INSTITUTION

Bharat Institute of Technology was established in the year 1999 by the Chinta Reddy Madusudhan Reddy Educational Society with the noble aim of imparting quality pharmacy education to students aspiring to become responsible pharmacists and to cater to the needs of pharmacy profession. Bharat Institute of Technologies (BIT) mission is to impart the higher education to both urban and rural students in the field of pharmacy and to conduct advanced research programmes in fostering close partnership with R&D institutions and industries. Nurturing young minds into passionate pharma professionals. Personal care to each and every student for the betterment of their bright future. Joyful learning experience in a holistic and an ambient environment.

Course Objectives

To develop the overall proficiency in English of students and enable to function them effectively in different professional contexts. To strengthen the skills in various aspects.

Course Outcomes

Upon Completion of the Course,
Students will be able to communicate, use data and clinical support to help health care professionals and it also deals with the informatics principles, and information technology

Value Added Course on Health Informatics

Health Informatics

A Value-added course for B. Pharmacy IVth year Pharma. D IVth Year Students was organized by the Department of Pharmacy at Bharat Institute of Technology-Pharmacy from 1st March 2021 to 6th March 2021. The course was conducted on "HEALTH INFORMATICS". The resource person for the course is **Dr. K. Swathi**, Assistant Professor, Pharma. D, Bharat Institute of Technology-Pharmacy. The course started on 1st March 2021 the welcome address by the coordinator **P. Twyla Pushpa** and introduced the resource person. It ended on 6th March 2021 with concluding remarks by the resource person. A total of 62 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

To develop the overall proficiency in English of students and enable to function them effectively in different professional contexts. To strengthen the skills in various aspects.

Course Outcomes:

1. Students will be able to communicate, use data and clinical support to help health care professionals and it also deals with the informatics principles, and information technology

VALUE ADDED COURSE
ON
"CRITICAL CARE MEDICINE"

A Value-added course for Pharma. D IIIrd, IVth & Vth Year Students was organized by the Department of Pharmacology at Bharat Institute of Technology-Pharmacy from 07th April 2020 to 12th April 2020. The course was conducted on "*Critical Care Medicine*". The resource person for the course is **Dr.K. Shibnath**, Associate Professor, Department of Pharmacy Practice, Bharat Institute of Technology-Pharmacy. The course started on 07th April 2020 with the welcome address by the coordinator **Mr. P. Twila Pushpa** introduced the resource person. It ended on 12th April 2020 with concluding remarks by the resource person. A total of 65 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

The purpose of this course is for better understanding critical care medicine, emergency medicine, the exchange of current and innovative procedures as well as basic and clinical research in all areas.

Course Outcomes:

Upon Completion of the Course,

- Understand the Procedures of Critical Care medicine.
- Explain various Critical care disorders like Cardiovascular, Pulmonary, Neurological, and other infectious diseases.
- Describe the Management of Polytrauma Patients including the management of Major Haemorrhage, Respiratory Failure in Critically Ill Patients in Intensive Care Unit.

Nurturing young minds into passionate pharma professionals. Personal care to each and every student for the betterment of their bright future. Joyful learning experience in a holistic and an ambient environment.

Course Objectives

Learn about the basic principles and terminology of patient safety. Recognize the importance of patient safety in improving health outcomes.

Understand the types of errors and adverse events that occur in healthcare settings.

Explore common causes of errors, including human factors, system flaws, and communication breakdowns.

Course Outcomes

1. Define and Explain Patient Safety Concepts
Articulate key concepts and terminology related to patient safety.
Explain the impact of safety practices on patient outcomes and overall healthcare quality.
2. Analyze Patient Safety Incidents
Identify and analyze common types of errors and adverse events.
Use root cause analysis and other methodologies to investigate incidents.

On
"Patient safety in Health care"

A Value added course for IVth & Vth Year Pharma.D Students was organized by the Department of Pharmacology at Bharat Institute of Technology-Pharmacy from 6th August 2018 to 10th August 2018. The course was conducted on **"Patient safety in Health care"**. The resource person for the course is **Dr.K. Shibnath**, Professor, Department of Pharmacology, Bharat Institute of Technology-Pharmacy. The course started on 6th August 2018 with the welcome address by the coordinator **Mrs. S. Namratha** and introduced the resource person. It ended on 10th August 2018 with concluding remarks by the resource person. A total of 50 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

Learn about the basic principles and terminology of patient safety. Recognize the importance of patient safety in improving health outcomes.

Understand the types of errors and adverse events that occur in healthcare settings.

Explore common causes of errors, including human factors, system flaws, and communication breakdowns.

Course Outcomes:

By the end of the course, students should be able to:

1. Define and Explain Patient Safety Concepts
 - o Articulate key concepts and terminology related to patient safety.
 - o Explain the impact of safety practices on patient outcomes and overall healthcare quality.
2. Analyze Patient Safety Incidents
 - o Identify and analyze common types of errors and adverse events.
 - o Use root cause analysis and other methodologies to investigate incidents.

Course Objectives

- To know the pharmacokinetic of drug particles
- To select polymers, polymer drug conjugates
- To compare diffusion-controlled systems
- To specify route of drug delivery.

Course Outcomes

- Understand the bioavailability, elimination and therapeutic index of drug products.
- Classify various polymers, biopolymers and polymer drug conjugates
- Categorize the diffusion-controlled system.
- Select nano and micro polymeric particles
- Summarize implant associated infections, route specific delivery.

Assessment

Upon Completion of the Course , Assessment is Done by Multiple Choice Questions.

Value Added Course on Drug Delivery systems and Engineering

11th to 16th Feb 2019

Venue: Seminar Hall

Organized by

Department of Pharmaceutics

BHARAT
INSTITUTIONS

VALUE-ADDED COURSE
On
DRUG DELIVERY PRINCIPLES AND ENGINEERING
SUMMARY REPORT

A Value-Added Course for IVth B. Pharm and M. Pharm (Pharmaceutics Dept.) Students organized by the Department of Pharmaceutics at Bharat Institute of Technology-Pharmacy from 11th Feb to 16th Feb 2019. The course was conducted on "Drug Delivery Principles and Engineering". The resource person for the course is Mrs. Kabita Banik, Assistant Professor, BIT-Pharmacy. The course started on 11th Feb 2019 with the welcome address by the coordinator Mr. M. Naresh Kumar, Assistant professor, Bharat Institute of Technology-Pharmacy introduced the resource person. It ended on 16th Feb 2019 with concluding remarks by the resource person. A total of 35 students participated and completed the course. The overall feedback from the participants was very good.

Course Objectives:

- To know the pharmacokinetic of drug particles
- To select polymers, polymer drug conjugates
- To compare diffusion-controlled systems
- To specify route of drug delivery.

Course Outcomes:

- Understand the bioavailability, elimination and therapeutic index of drug products.
- Classify various polymers, biopolymers and polymer drug conjugates
- Categorize the diffusion-controlled system.
- Select nano and micro polymeric particles
- Summarize implant associated infections, route specific delivery.

PROGRAM SCHEDULE

Date & Time	Topic	No. of Hours
11 th Feb 2019 01:00PM to 06:00PM	Pharmacokinetics: Bioavailability, Elimination, Therapeutic index, Prodrugs, Controlled release, Polymers: Synthesis, properties, characterization, crystallinity and amorphousness	5
12 th Feb 2019 01:00PM to 06:00PM	Biopolymers: Natural and Synthetic, biocompatibility, Biodegradation, commonly used biopolymers, Polymer-Drug conjugates, PEGylation	5
13 th Feb 2019 01:00PM to 06:00PM	Ficks laws, Reservoir systems, Non-erodible matrix systems: Bio-erodible Systems, Metal and polymeric particles, effect of particle shape, charge and elasticity.	5
14 th Feb 2019 01:00PM to 06:00PM	Hydrogels: Physical or chemical, pore-size calculation, in-situ, Nano and Micro-particles: Dendrimers, Liposomes, Micelles	5
15 th Feb 2019 01:00PM to 06:00PM	Protein Adsorption and tissue engineering: Drug delivery in tissue engineering, Vaccines, Cancer vaccines, Cell and gene delivery	5
16 th Feb 2019 01:00PM to 06:00PM	Implant associated infections, Route specific delivery: Oral, Subcutaneous, Intramuscular, Route specific delivery: transdermal, inhalation, intravenous, Smart responsive drug delivery, Targeted drug delivery, Nanotoxicology and market translation	5
Total		30
